

Cycling UK Wednesday Wanderers, Wales - Wednesday Evening Rides, January – April 2020

As the dark evenings will still be with us for a while longer, we'll be staying fairly close to Cardiff until spring arrives. We always ride as a group and at a steady pace. These rides are definitely not races, but an opportunity to have a good ride with a sociable group of fellow cyclists.

Rides: Meet at 6.50 pm (for 7.00pm departure) from the one of the four starting points noted below (or 7.10pm from the secondary point). We shall also aim to arrive at the destination around 8.30pm, and to leave by about 10.00pm so that we do not arrive back in Cardiff too late. From some destinations we may leave earlier and call somewhere nearer Cardiff on the way back.

It is your responsibility to ensure that your cycle is in good working order, and that you have a means of getting home in the event of breakdown. Good front and rear lights are essential, and it is advisable to wear bright, weather-proof clothing. We would also recommend that you have membership of the Cycling UK or other organisation that provides you with third party liability insurance. **Please note: You ride at your own risk.**

The distance indicated is in miles. It is approximate, and depends on the route. If the weather is fine and the group wishes, we usually make the outward journey a few miles longer. Equally, if the weather is bad we may shorten the ride, or change the destination to suit (e.g. if the lanes are icy).
